

FBWRA Chairman's Report for April 2021 Committee Meeting

Chaville Court- update from Thames Water received and circulated.

Cycle Lanes in High Road- to be covered in further Newsletter article – draft with Committee

Parking Charges in Parks- apparently the Council are proceeding with this.

Council Engage Barnet website – to be covered in Newsletter article – draft with Committee

FORAB – As previously reported, I have asked FORAB's Chairman if we can post FORAB minutes on our website. Response still awaited. Reminder to be sent.

Planning -

North Finchley Town Centre Regeneration –No response to my application to be appointed to the Partnership Board- no response so far. Consequently sent in a FoI request about progress in establishing it generally. The response disclosed nothing new – by inference nothing is happening. I have asked the Council to review their refusal to provide information about applications to join the Board.

Parking Surveys for planning applications- As previously reported , FoI request essentially rejected. I have appealed to the Council's in-house review system. Result awaited

Housing statistics – unsatisfactory response to FoI. More finely tuned request to be submitted.

Council – advertising on banners on lamp standards – objection submitted to Council for Whetstone application. Mailchimp to members prompted further objections. Love Whetstone have also encouraged responses. Should now go to Committee.

FinSoc Planning Committee. I participated in the March Meeting. A note was circulated to the Committee.
