

FBWRA Chairman's report for June 2022 Committee meeting for website

A very brief report this month -

1. Website - planing applications. I have heard no more from the gentleman who was troubled about his data on the Council lists on our website after I wrote explain king that we had removed the webpages and would be adopting a new system.

2. Chaville Court. Thames Water have identified an issue that may be at the root of the problem and are applying for permits to investigate.

3. Summer Splash. I have taken advantage of Jubilee offers to buy red and rose wine (we already have white). I have purchased the same types as for the AGM.
